

Please don't change the No-Call list..Many of the taxpayers in this state appreciate not getting calls from telemarketers who are trying to sell unwanted & unneeded items and services. I, for one enjoy dinner time more and being able to watch a movie with my family without the phone ringing every 1/2 hour. I don't feel bad for the companies trying to change the No-Call list, if people want what they are selling, the people can seek out the companies.
